### Livin Wise

WRO

i'm well aware of the coming danger  
that's why I'm living wise

i'm not a fan of loathe and anger  
I swallow a pill sometimes  
walk away don't let it hurt my pride

i'm one of the total strangers  
on the bus too many wide  
I always say hello to whoever rides

### I Get Up

WRO

when I get up early in the morning  
and I go down by the edge of the sea  
I feel like standing high above the water  
raise that name that lead my jubilee

ever since I was a baby  
I was raised on gods name  
now I ask the Lord  
hey would you love me the same  
if I was living in a bad situation  
would he take his hand and pull me  
from the flame

when I get up early in the morning  
and I go down by the edge of the sea  
I feel like dancing high above the water  
raise that name the lead my jubilee

if I was sitting between my two daughters  
and our aero plane came tumbling on down  
well before we'd land in real hot water  
he would take his hand and set us  
on the ground

when I get up early in the morning  
I go down by the edge of the sea  
I feel like dancing yes I do high  
above the water  
raise that name that lead my...

### Raise Your Hands

WRO

Scarlet eyes, darkest night  
be as right as it was

Days are long  
like the day the night goes on and on

raise your hands up high  
raise 'em to the sky

Starry night, see you shine  
be as light as you want

All your life, Touch the sky  
stay with me together forever

raise your hands up high  
raise 'em to the sky

Scarlet light, second sight  
take your time not right away  
see it all, closer still  
turn around stay close to me

raise your hands up high  
raise 'em to the sky

raise your hands  
raise your hands  
raise your

### Shame On You

WRO

As you stand before me now  
Said all you can say  
The words keep coming out and fading away  
maybe I should fight back  
and raise my voice when I know I'm right  
but it's late and im already fading out

shame on you shame on me  
i'm afraid of what I hear  
and ashamed in the way  
I blame you, you blame it on me  
take a deep breath and let it all go

we've been working  
working all night long  
I think we got it right too, yeah but  
now you're playing  
playing playing playing  
I don't feel like playing the blues no more

shame on you shame on me  
I'm afraid of what I hear and  
ashamed in the way I blame you,  
you blame it on me  
take a deep breath and let it out

and if I said there was just one reason  
give me more time to live it out

shame on you shame on me  
I'm afraid of what I hear and  
ashamed in the way I blame you,  
you blame it on me  
take a deep breath and let it all go

### Angel Glow

WRO

angel glow yes she's all that I want  
taking flight up to the sea  
one more night and the moon shines bright  
silent light it shines for me

smiles that fool no one  
she's taking the fall  
my ocean  
i've been waiting too long  
but you took it too far and you know it yeah  
from twilight long gone  
she sees the night so magical

writing the words out through my candle glow  
I begin now where you are  
sing voice echo like our love before  
far from here where I write

smiles that for no one  
she's taking the fall  
my ocean  
i've been waiting so long  
but you took it too far and you know it yeah

from twilight's long gone  
she sees the night so magical

and in that moment chasing my fall  
my ocean  
see your angel now  
she is the light

### Joy and Doubt

WRO

stuck in the middle  
somewhere between joy and doubt  
some kinda riddle i cant figure out

in my time I've seen love and war  
I can't help feeling like I've been here before  
in my life I've seen joy and pain  
I keep on riding on that run away

stuck in the middle  
somewhere between right and wrong  
i'm low and ready to go head long

in my life I'm gonna enjoy my time  
going to keep on playing  
let it all be mine  
if a good love thing  
brings joy and pain  
then I'll keep on riding on that runaway train

I think I'm insane sometimes  
i talk too much to myself  
I say yeah, yeah, yeah, yeah baby

stuck in the middle  
somewhere between high and low  
and where I'm headed well I don't know

in my time I've seen love and war  
and I can't help feeling like we've  
been here before  
in my life there's been joy and pain  
i keep on riding on that runaway train

## Hardtime

WRO

eastbound or westbound  
it doesn't matter where you've been  
there's always somewhere to begin

now your way or my way  
doesn't matter who wins  
we're all in this together

we are facing hard time  
there's worry on my mind  
I got my ways to mend  
and when it comes time  
I will be ready yes I will  
for heaven to let me in

down side up or upside down  
The wheel goes round and round  
on my way to pick you up cause  
you're feeling down  
there's an open door just waiting  
in the pouring rain  
and I will be there whenever

you're facing hard time  
and there's worry on your mind

you got your ways to mend  
and when it comes time  
get that worry off your mind  
and find a better way to live

and when you wake up  
it's a brand new day  
and the sun is shining in  
oh let it shine

oh we're facing hard time  
there's worry on my mind  
i've got my ways to mend  
now there will come a time  
there will be no more worry  
on my mind

## Mr. Sunshine

WRO

I check the time and it was 9 o'clock  
turn off the light and lock the door behind me  
and on my way home is when I realized  
that I didn't get a damn thing done that I wanted to  
do today  
and I didn't have time to talk to you  
when you said

hey Mr. sunshine what's wrong with you  
don't you want to share your light anymore  
I would be happy just being you  
without you what would life be in this world  
so full of obligation

I get home and you were sticky sweet  
the hour is slowly wearing on me now  
and you asked me how was today  
and I said well it was OK but I lied  
cause I'm so tired of just going through the motions  
and now I don't have time to talk to you  
to hear you say

hey Mr. sunshine what's wrong with you  
don't you want to share your light anymore  
I would be happy just being you  
without you what would life be in this world

I lay down and I'll go right to sleep  
gladly put this day behind me  
and when I close my eyes  
you are the last thing I see  
now I know why I am living  
now I know why I am alive when you said

hey Mr. sunshine what's wrong with you  
don't you want to share your light anymore  
I would be happy just being you  
without you what would life be in this world  
hey Mr. sunshine what's wrong with you  
hey Mr. sunshine what's wrong with you  
hey Mr. sunshine what's wrong with you  
hey Mr. sunshine what's wrong with you  
don't you want to share your light anymore

## White Rose

WRO

I want to call you up  
so we can talk for a while  
you could come over Sunday  
and hang around till Monday  
you've got good reason to try  
your little girls just want to see you smile

there's a white rose in mamas kitchen  
there's a warm glow all around it  
there's a rainbow outside her window  
and it's coming down  
all the way from heaven to the ground

hell I ain't no saint  
i've learned enough about pain  
till I can't feel it anymore  
shades of black and blue  
well they're showing up all over you  
you've got good reason to change  
your little girls just want to see your face

there's a white rose in mamas kitchen  
there's a warm glow all around it  
there's a rainbow outside her window  
and it's coming down  
all the way from heaven to the ground

back in high school  
you just wanted to be cool  
and your friends all got high  
mama didn't raise no fool  
I guess you'll do what you want to do  
but you've got good reason to try  
your little girls just want to see you smile

she's the white rose in mamas kitchen  
and love grows all around it  
there's a rainbow outside her window  
and it's coming down  
all the way from heaven to the ground
